Re Fixing a floating arm in the Chik'angala tank
in Kadur Taluk

I have the honour to state that as the floating arm in the Chik'angala tank, which is the source of water supply to Kadur Town, was damaged, a new floating arm had to be fixed for the supply of good drinking water, in the interest of Public Health as per the estimate received from the Sanitary Engineer, a sum of Rs 1,000/- being the cost of the work, was credited to the Public Works Fund on 9-3-1941 by the Municipal President. The expenditure in this behalf is not provided in the budget estimates of the Municipality and the same has been met out of the closing balance

2 The Sanitary Engineer, who was addressed in the matter states that necessary materials have been ordered with the Mysore Iron and Steel Works, Bhadravathi and the Superintendent, Central Industrial Workshop, Bangalore and that the work would be taken up and completed on receipt of these materials. In the circumstances I request that the approval of Government may be kindly obtained to the action of the President, Municipal Council, Kadur in having incurred the expenditure of Rs 1,000/- referred to above, out of the closing balance of the Municipality, in anticipation of sanction

The corrected records accompany

I have the honour to be,
Sir,
Your most obedient servant

Deputy Commissioner,
Kadur District
